These features will need to be ?blown up? or require a larger scale drawing to provide the information necessary for construction. This blown up drawings are detail drawings.

We used Virto Solar to design the biggest single rooftop solar project in Africa. From PV designs to as-built plans and documentations, it worked absolutely perfect for us.

This document provides design details for a solar panel mounting structure including: 1) Dimensions and specifications for various steel beams and plates that make up the structure including IPEAA beams,

In this category dwg there are files useful for designing a photovoltaic system, solar systems, solar panels to produce electricity.

Access CAD drawings for Solartyle"s integrated solar tiles. Technical resources for architects, engineers and installers to plan solar roofing projects with precision.

As-built Rooftop Solar Drawings provide a record of how the system was actually installed. To produce the as-built drawings we require either the hand sketch of the changes made during the installations
