Unifix 50.2BW is the ideal support for attaching your 50/55W rigid solar panels to your boat balcony. Designed in 316L stainless steel, it is robust and completely protected against corrosion.

Descubra soportes de montaje solar duraderos y resistentes a la corrosión, diseñados para una alineación óptima de los paneles y una instalación rápida y sin herramientas.

Explore nuestra completa guía de accesorios de montaje de paneles solares, que incluye las mejores prácticas de instalación, compatibilidad, dimensionamiento y las últimas tendencias en tecnología solar.

Mounting brackets provide secure, adjustable support for solar panels across rooftop, ground-mounted, and off-grid solar installations.

Our solar panel mounts are optimized for adhesive-only (no-drill) or screw-down installations to RVs, vans, boats, trailers, etc.

The Floating Solar Mounting System installs solar panels on water to maximize space use, improve efficiency with water cooling, and conserve land.

A floating solar panel system, often referred to as a "floatovoltaic" system, consists of solar panels mounted on a buoyant structure that allows them to float on a body of water.

Secure small and mid-size solar panels on RVs, boats, poles, balconies and outdoor enclosures with corrosion-resistant solar panel brackets and mounts designed for fast installation, stable tilt and long

Flexible connection floating solar structure is ideal for large-scale solar farms on water bodies,

Water mounted solar panel bracket

offering stable and scalable installation solutions. These brackets enable easy expansion and maintenance,

EASY INSTALLATION: This solar panel mounting brackets kit is quick and easy to install, you can easily assemble the brackets and secure them with the included screws, nuts and
